FOR THE MOST CRITICAL GARDENER

BLAMBERG BROTHERS, Inc., BALTIMORE, MD.

*The BOLGIANO BUILDING - - - is
the home of BLAMBERG BROTHERS, Inc.*

THE SEED HOUSE OF EFFICIENT SERVICE

ON July 23, 1929, we announced our purchase of the entire business of the J. Bolgiano Seed Company, and the consolidation of the two firms, under our management. We retained our warehouse at 107 Commerce St., but moved the offices to the Bolgiano Building. Here we have a five-story building, planned exactly to fit the needs of a modern seed house. We have grown because for many years we have been well known for the supreme quality of our offerings in vegetable and field seeds.

Our business was established in 1913 and during our nineteen years of seed service we have segregated those growers of vegetable and field seeds who are reliable, from those who are not. We contract for true American-grown seeds of highest vitality; also single out European seed producers who are proud of having obtained better results in improving certain vegetables than any other seed grower.

Hand-picked Limas, Lettuce, etc.; from California; Snap Beans from Idaho; Cabbage from Washington State and Denmark; Celery, Carrots, etc., from France; Peas from Michigan; Spinach from Holland; Tomatoes from Michigan; Collards, Okra, Watermelons, etc., from the South; Cantaloupes, Squash, etc., from Colorado . . . produced by the most famous seed-breeders . . . reaches our establishment annually!

We shall appreciate an opportunity to discuss your seed problems with you, either in person at our offices or by correspondence, and to explain how we can help you to select profitable seeds.

Yours respectfully,

BLAMBERG BROTHERS, Inc.

“PURESEED BRAND” VEGETABLE SEEDS.

TERMS OF BUSINESS—Read Carefully Please!

1. FREE TRANSPORTATION ON ALL VEGETABLE SEEDS

Shipment will be made by Parcel Post, Express or Freight, our option, depending upon which method is the least expensive. When you require us to ship by express instead of by freight, please send us the difference between the two rates!!!

2. Remit, on all orders, by P. O. Money Order, Express Money Order, or Check.

3. C. O. D. Shipments: If seeds are to be paid for on delivery, customers should remit 25 per cent cash with order.

4. FERTILIZERS, INSECTICIDES and SUNDRIES: Are at all times excluded from free delivery.

5. GARDENERS DESIRING LARGER QUANTITIES OF ANY ONE VARIETY LISTED WILL BE QUOTED SPECIAL PRICES, ON APPLICATION.

6.  ALL SEEDS in this catalogue are offered subject to being unsold on receipt of order; and while we do not think there will be any serious changes in prices, they are subject to change without notice. 

7. ALL GARDENERS OF EXPERIENCE KNOW THAT SUCCESS WITH ANY GOOD SEEDS DEPENDS LARGELY ON WEATHER CONDITIONS AND PROPER CULTIVATION, so in accordance with the universal custom of the seed trade, Blamberg Brothers, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds they send out, and they will not be in any way responsible for the crop.

ANNOUNCEMENT

We do not issue a General Flower Seed, Plant and Farm Supply Catalogue. Our Efforts are confined to the Sale of the Vegetable and Field Seeds, and Sundries Listed Herein.

BLAMBERG'S INVINCIBLE SPECIALTIES!

The only way you can get a true line on the values we are offering is by making comparative tests with the seeds you buy elsewhere, and it is our conviction that you will find it profitable to plant our specialties.

Large White - the true large, greenish white lima40	.23	.19
Small or Sieva, Carolina - baby lima, very prolific40	.21	.18

Field of “Pureseed” Brand Fordhooks in California

THE TREES ARE CALIFORNIA OR ENGLISH, WALNUTS

A typical scene in the leading lima bean seed-producing area of the United States. This seed field is kept free of weeds and plant mixtures by careful cultivation and roguing. We expect to maintain our high standard of type and quality in Fordhook, and all other seed beans.

“Pureseed Brand” Fordhook Bush Lima crops are truer-to-type, and freer from other bush limas, sports, and reversions than most other crops of that variety. Our Fordhook pods usually contain five large thick seeds which are unquestionably the “best pods”; and the seed is carefully hand-picked.

BEETS—TABLE VARIETIES

One ounce will sow 50 feet of row; 7 pounds will sow an acre.

The latest methods known to science is applied in the breeding of our beet seed. Our strains are grown to perfection in regard to shape, flesh and small top.

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
Bassano, Early Flat.....	\$0.10	\$0.20	\$.65	\$0.55
Crimson Globe.....	.10	.20	.65	.55
Crosby's Egyptian, Reselected10	.25	.70	.60

RESELECTED CROSBY'S EGYPTIAN

One of the best strains for early planting. Our reselected strain is grown from hand-selected rootlets. The roots are of a flattened round shape; skin is black red, flesh dark red, with little zoning. Tops are small and right size for bunching.

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
DETROIT DARK RED - special stock.....	.10	.25	.80	.75

Market Gardeners praise our select strain of this variety. The very best main crop or winter sort. The zones or rings almost the same color as the flesh.

Early Blood Turnip (Edmands).....	.10	.20	.70	.65
EARLY WONDER (SELECT STRAIN).....	.10	.25	.75	.70
Early Spring (Bolgiano's)10	.25	.75	.70

Absolutely the finest early beet obtainable. Skin is dark and smooth, small tap root, top medium sized and of a very deep dark red color.

Eclipse - a good basket beet. Sells freely.....	.10	.20	.70	.65
Extra Early Flat Egyptian - fine for forcing10	.20	.70	.65
Long Smooth Blood-Red - good keeper.....	.10	.20	.70	.65
SWISS CHARD LUCULLUS.....	.10	.25	.65	.60
SWISS CHARD, GREEN LYON.....	.10	.25	.70	.65

Green Lyon has extra broad white ribs, dark green smooth leaved. The stalks and mid ribs are prepared and served like Asparagus. Tops are valuable as greens.

Write for special Attractive prices on 50 lbs. or more.

Italian Calabrese (Green Sprouting) - <i>see photo</i>20	.40	1.25	4.50
St. Valentine, (Winter Cauliflower)20	.40	1.25	4.50
RAPA or Turnip-Broccoli (Italian Turnip)10	.25	.85	2.50

It has small green heads same as Calabrese, but much earlier. True Baltimore type.

GREEN SPROUTING BROCCOLI—Special Strain

Also called Calabrese

One ounce will produce 2500 plants.

This delicious vegetable has now become very popular in many parts of the United States. Our stock is the true one, sought by Italian market gardeners. Sow the seed in May, and harvest the sprouts in August. Cut the sprouts before the heads break into flower, otherwise they will shoot to seed.

BRUSSELS SPROUTS

HALF DWARF BRUSSELS SPROUTS.....	.10	.20	.65	2.25
----------------------------------	-----	-----	-----	------

We sell 3 or 4 pounds at 5 pounds rate per pound.

CABBAGE

This is another wonderful crop of PENN STATE BALLHEAD CABBAGE! Every row and every head in the row look as nearly alike as good peas in a good pod!

PENN STATE BALLHEAD CABBAGE

The great value of this variety lies in its high standard of purity of type and its ability to double your profits. It is a type much preferred over other round varieties by Pennsylvania and Maryland market gardeners. Under favorable soil and weather conditions 98 per cent of the plants have often matured marketable heads and a yield of 24 tons of cabbage to the acre.

It forms medium size heads—just the right marketable size. Head is very SOLID, A GOOD KEEPER, and we do not believe a better late cabbage was ever offered to truckers of this section, and our nearby states.

THE PENNSYLVANIA STATE COLLEGE MAINTAINS CONTINUOUS BREEDING WORK ON THIS VARIETY AND SUPPLIES OUR CABBAGE SEED GROWER WITH THE STOCK SEED THAT THEY PRODUCE.

Genuine Penn State Ballhead Cabbage is sold only in SEALED PACKAGES.

The True-Type of this variety is sold in sealed packages bearing this Statement. ➡➡

1/4 lb. .20 1/2 lb. 3.50 1 lb. 6.00

PENN STATE BALLHEAD

THE PENNSYLVANIA STATE COLLEGE
Department of Horticulture

The seed in this package is produced by the only grower who is supplied with stock seed of the PENN STATE BALLHEAD cabbage grown by The Pennsylvania State College. In order to be sure of securing the true type of this variety, seed should be purchased only in sealed packages bearing this statement.

"Pureseed Brand" Cabbage Seed is genuine in every respect.

CABBAGE (Continued)

Danish Ball Head Medium Stem (HOLLANDER)

Blamberg's Special Strain

Per. Oz.	Per. ¼ Lb.	Per. Lb.	5 Lbs. or More
\$0.30	\$0.85	\$3.00	\$2.75

Through careful selection a strain has been developed which we found far superior to the usual commercial stocks. The large heads are nearly round, extremely solid and more compact than the standard strain. Prized for its blight resistance, and heavy yield. Will keep in excellent condition throughout the winter.

Hollander (Danish Ball Head Medium Stem) Special Strain

CHINESE OR CELERY CABBAGE

Sow the seed in July (not earlier or later) because chinese cabbage may bolt to seed in warm weather. Sow where the plants are to remain in rows 2½ feet apart, thinning to from 12 to 18 inches apart in the row. In the Southern states sow after the early part of August.

	Per. Oz.	Per. ¼ Lb.	Per. Lb.	5 Lbs. or More
"PEKING" - (Genuine "Pe Tsai")25	.75	2.50	2.35
"Paoting" - (Genuine Wong Bok) shorter than Pe Tsai.....	.25	.75	2.50	2.35
"CHIHILI" - earliest and most sure heading.....	.30	.90	3.25	3.00

The heads of Chihli are long, almost cylindrical, blanched pure white, two feet in length, very solid and of a superior quality. Although of recent introduction it is already very popular on many markets. Sow in July and August as Spring sowings will bolt to seed.

YELLOW RESISTANT CABBAGE

Our growers have been giving special attention to cabbage resistant to yellows, and lately the breeding work has been done near Racine, Wis., and in Iowa. You can buy our strains with every assurance that they are right.

We are confident that the use of the yellows resistant strains of cabbage will gradually increase in demand as the cabbage districts of the south are rapidly becoming infested with this disease.

IACOPE - a new yellows resistant..... Crop Failure

This yellow's resistant strain of Copenhagen Market is a product of ten years' breeding by the Iowa Agricultural Experiment Station. This is the first and only strain of early cabbage resistant to yellows.

Wisconsin All Seasons30 .80 2.75 2.50

Used generally as a Kraut and earlier market sort.

Wisconsin Hollander or No. 8..... .30 .80 2.75 2.50

A ball head type grown in yellows sections as a market and storage variety. Heads resemble Danish Roundhead short stem. A main crop sort.

CAULIFLOWER

One ounce will produce about 2000 plants; 6 to 8 ounces to an acre.

BOLGIANO'S NEW CENTURY

THE BEST IN THE WORLD FOR VERY EARLY OUTDOOR CROP IN SPRING.

This strain that we alone offer is famous in Colorado as well as in other shipping centers, where it is accepted by the largest growers as the best sure heading dwarf, early Cauliflower.

Growers can feel sure of great profit by planting it. One-third more can be planted on the same space than can be done with other varieties because of its close growing, compact habit.

	Per Pkt.	Per Oz.	Per ¼ Lb.	Per Lb.
Bolgiano's New Century.....	.20	2.00	6.50	25.00
Danish Dry Weather - <i>select stock</i>20	1.75	6.00	22.50

EARLY SNOWBALL - <i>it will prove its worth</i>20	1.75	6.00	22.50

New Century is superior to any other early dwarf variety you thought was the best.

BLAMBERG BROTHERS, Inc., BALTIMORE, MD.

CELERY

Sow two ounces of seed to 100 yards of row.
A Packet of Any Seed on This Page, 10c

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
Columbia - <i>an early maturing sort; medium height</i>	\$0.25	\$0.80	\$2.75	\$2.50
Dwarf Golden Heart - <i>a good keeper; large heart</i>25	.75	2.50	2.25
Emporer, or Fordhook - <i>blanches up well</i>25	.85	3.00	2.75

This dwarf type of excellent quality is very solid and large with no suckers. It is upright in growth of very thick stalks, sixteen inches high.

GOLDEN SELF-BLANCHING - <i>high class quality</i>30	.90	3.25	3.00
--	-----	-----	------	------

Our strain of Golden Self-Blanching has brought profit to our customers. The stalk is Ivory-White, very thick, broad, and of fine flavor. The heart is large and golden. This famous variety has long been a standard for early use.

GOLDEN SELF-BLANCHING - <i>French grown</i>75	2.50	8.75	8.50
Giant Pascal - <i>a good keeping green celery</i>25	.80	2.75	2.50

Giant Pascal is very productive, and one of the best for winter use. It is one of the best mammoth large green, celeries on the market. Stalk is silver-white, very solid and crisp. Very easy to bleach.

Henderson's Easy Blanching - <i>a most valuable variety</i>25	.80	2.75	2.50
White Plume - <i>self blanching; naturally turns white</i>25	.80	2.75	2.50

This most desirable variety is much in demand by market gardeners for early fall use. It blanches very quickly; is very tender and sweet.

Wonderful, or Golden Plume (Packet, 25c)60	2.00	7.00
---	-----	------	------	-------

This variety has largely displaced all other varieties all over the country, as the most popular early and mid-season variety. Slightly earlier than Golden Self-Blanching, but Golden Self-Blanching is a better keeping Celery. Our seed of this variety is dependable. It produces a full heart and thick stalk of extra-good quality and appearance.

The rib is 9 to 10 inches to the first joint, is very hard, and its firmness makes it less susceptible to damage by heat or cold. Plant Golden Plume for the first on the market.

about 200 hills

CORN

Sow 12 pounds
to an acre

POSITIVELY THE HIGHEST QUALITY AVAILABLE FOR CANNER OR TRUCKER.

SWEET AND SUGAR VARIETIES

Our Select Northern Ohio Grown Seed Corn we take from our best fields, and it will average 3 to 5% higher in germination than the No. 1 corn sold by some seedsmen. Our sweet corns are freer from flint and glaze and superior in quality and vitality to that grown in other sections of the United States.

EXTRA EARLY SORTS

	Per Lb.	Per. 15 Lbs.	50 Lbs. or More
Adam's Extra Early - 64 days.....	\$0.30	\$0.15	\$0.11
BURBANK BANTAM.....	.35	.22	.18
<i>earlier and longer than Golden Bantam. 12, 14 to 16 rowed. Wonderful flavor. Possibly the very best yellow corn. Every gardener should grow it.</i>			
BOLEARLY, - 55 days; very hard; the best extra early30	.18	.14
BOLGIANO'S EXTRA EARLY HARVESTER - see photo.....	.30	.20	.16

Early Adams, Large Improved or Ideal - 68 days.....	.30	.16	.12
Early Crosby - used almost entirely in northern localities35	.22	.18
Early Evergreen - resembles Stowell's; a week earlier.....	.35	.21	.17
Early Mammoth - 75 days,, A popular, early, long variety.....	.35	.21	.17
Early Minnesota - very popular 8 inch, 8 rowed early sort.....	.35	.21	.17
Golden Giant 78 days, a very desirable variety.....	.35	.22	.18
<i>A cross between Golden Bantam and Howling Mob. Ears 8 inches long, set with 16 to 18 rows of luscious kernels.</i>			
Howling Mob - see photo, opposite page.....	.35	.21	.17
Kendel's Giant - or Early Mammoth White Cory.....	.35	.21	.17
<i>The Cory is undoubtedly the very best extra early Sugar Corn—74 days.</i>			
Whipple's Early Yellow - ears nearly 9 inches long.....	.35	.21	.17
Whipple's Early White - about 5 days earlier than Crosby35	.21	.17

LATE CROP SORTS

COUNTRY GENTLEMAN - (Shoe Peg) gives results35	.21	.17
Late Mammoth - (Mammoth Sugar) very large ears35	.22	.18
Narrow Grain Evergreen - very popular with canners35	.19	.15
STOWELL'S EVERGREEN - 80 days, very productive35	.18	.14
STOWELL'S EVERGREEN - "Extra Selected" — nuf-sed35	.19	.15
Trucker's Favorite - a late Adams type.....	.30	.15	.11
White Evergreen - grains whiter than Stowell's, broader.....	.35	.21	.17

“PURESEED BRAND” Northern Grown Sugar Corn is unexcelled as to sweetness. We sell 5 lbs. at 15 lb. rate; 30 lbs. or more at 50 lb. rate.

STOWELL'S EVERGREEN, SELECT

The very best strain available. Eastern grown. Ears 8 to 9 inches long, 16 to 18 rowed, with deep, sweet, grain.

HOWLING MOB

The sweetest of all second-early varieties. Ears 7 to 9 in. long, closely set with 12 or 14 rows of pearly white grains. Really a delicious corn.

Bolgiano's Extra Early "Harvester" Sugar Corn is a Profitable Extra Early Corn.

"PURESEED BRAND" VEGETABLE SEEDS.

FIELD CORN

TRANSPORTATION FREE

Sow 15 lbs. to the acre, or 56 lbs. to 4 acres.

SWEET CORN

EXTRA EARLY "Harvester"

This White Sugar Corn was introduced by Bolgiano, of Baltimore. Several days earlier, and larger than Golden Bantam, and sweeter flavor. Listed on page 15.

Bolgiano's Cuban Giant Ensilage. The best milk-producer of all ensilage Corns, being as sweet as Sugar Corn. Outyields Red Cob Ensilage and is 10 to 12 days earlier. 1 qt., 25c; 1 pk. (14 lbs.), 85c; bu. (56 lbs.), \$2.50.

Bolgiano's Prosperity Yellow Dent. 100 to 120 days. A luxuriant grower, height about 12 feet. 1 qt., 25c; 1 pk. (14 lbs.), 85c; bu. (56 lbs.), \$2.50.

Boone County White. Cylindrical ears well filled out at both ends, 9 to 11 inches long, averaging 20 rows. Cobs white of medium size. 1 qt., 25c; 1 pk. (14 lbs.), 75c; bu., \$2.35.

Eureka Ensilage. Grows 15 feet high. It is a very rapid grower and can be raised throughout the United States with wonderful success. 1 qt., 20c; 1 pk. (14 lbs.), 75c; bu. (56 lbs.), \$2.35.

Hickory King. 125 days. An old and well-known white variety. The stalks grow from 6 to 8 feet high and bear from two to three ears. 1 qt., 30c; 1 pk. (14 lbs.), 90c; bu. (56 lbs.), \$2.75.

Lancaster County Sure Crop. 90 to 110 days. The ear is 10 to 14 inches long with 14 to 16 rows of deep yellow broad grains. Height 8 to 10 feet. 1 qt., 25c; 1 pk. (14 lbs.), 75c; bu. (56 lbs.), \$2.35.

Leaming Improved. 105 days. One of the earliest varieties. The ears are long with small red cob. Grains of medium size, but deep rich golden color. 1 qt., 25c; 1 pk. (14 lbs.), 75c; bu. (56 lbs.), \$2.35.

Reid's Yellow Dent. 115 days. One of the most popular yellow dent varieties. Ears average 9 to 11 inches in length. It makes the finest ensilage and fodder. 1 qt., 25c; 1 pk. (14 lbs.), 75c; bu. (56 lbs.), \$2.35.

Red Cob 90-Day. White with red cob. It yields an almost unbelievable tonnage of either ensilage or fodder. Can be used as a roasting-ear Corn. Suitable for an early crop or for a late crop, because it matures in 90 days. 1 qt., 25c; 1 pk. (14 lbs.), 85c; bu. (56 lbs.), \$2.50.

White Rice Pop-Corn. A most popular variety and a very prolific producer of ears of excellent quality that pop pure white. Pkt 10c; lb., 25c; 10 lbs., \$1.20; 100 lbs., \$10.00.

Our Colorado grown stocks have been selected and worked up under the most careful supervision, and we offer seed only of exceptional merit.

B. F. WESLEY'S IMPERIAL

"ALWAYS A TOP-PRICE GETTER AND AN EASY SELLER"

Wesley's Imperial is the Aristocrat of the slender, dark green shipping sorts. The color is superior to that of Early Fortune. It is early, and a tremendous yielder. Fruits 9 inches long This free from blight, hardy, cucumber is yearly grown with great success by hundreds of shippers in Maryland and Delaware.

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
Boston Pickling, or Green Prolific	\$0.10	\$0.30	\$1.00	\$.90
Chicago Pickling - a most desirable pickling variety10	.30	1.00	.90
Clark's Special, Improved - a fine shipper.....	.10	.35	1.10	1.00
<i>It holds its color for a long time. Critical Shippers of Maryland and Delaware praise it highly.</i>				
DAVIS PERFECT - excellent for resisting disease.....	.10	.35	1.10	1.00
Early Cluster - fruit borne in clusters, short fruit10	.35	1.10	1.00
Early Fortune - disease-resistant, 9 inches long10	.35	1.10	1.00
Early Frame, or Short Green10	.35	1.10	1.00
Fordhook Famous - keeps color well, 12 inches long10	.35	1.10	1.00
Jersey Pickling - develops pickling fruits in 60 days.....	.10	.30	1.00	.90
Klondyke - a fine medium early, 8 inches long10	.35	1.00	1.00
Long Green, Improved - late cropper, 12 inches long....	.10	.35	1.10	1.00
Snow's Perfected Pickle - suitable for bottling10	.30	1.00	.90
B. F. WESLEY'S IMPERIAL - see photo.....	.10	.35	1.10	1.00
West India Gherkin - a round, prickly cucumber.....	.10	.35	1.10	1.00
White Spine, Henderson's Perfected - extra early..	.10	.35	1.10	1.00
FLORIDA GREEN - a stay green strain.....	.10	.35	1.10	1.00

This Stay Green Variety is the most profitable Cucumber, now grown in Florida. A small early shipping sort, notable for its intense dark green color, which shows no trace of white at the edible stage. A heavy yielder. Size 6½x2¼. Edible in 52 days. Our seed has been carefully bred in Colorado, and is the equal of the best Stay Green seed available.

B. F. Wesley's Imperial Cucumber will appeal to shippers in every Cucumber shipping center of the South.

“PURESEED BRAND” VEGETABLE SEEDS.

EGG PLANT

One ounce of seed to 100 yards of row.

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
BLACK BEAUTY35	1.15	4.00	3.75
<i>The earliest, large fruited variety. Fine for main planting. The purplish-black fruits are thick and heavy; ten days earlier than New York Improved.</i>				
FLORIDA HIGH BUSH35	1.15	4.00	3.75
<i>This is the favorite variety in Florida, stands shipping well. It is very productive and hardy. Fruits higher than others which is desirable to keep out rot and blight.</i>				
LARGE NEW YORK PURPLE - (spineless)35	1.15	4.00	3.75
<i>This variety is most popular, owing to the large size, fine quality fruits, and the productivity of the plants. A plant yields 4 to 6 large oval fruits. The flesh is of excellent quality.</i>				

ENDIVE

One ounce of seed for 150 feet of row; 4 or 5 pounds per acre

Broad-Leaved Batavian (Escarolle) Endivia Scariola15	.35	1.10	1.00
<i>This well-known variety is crisp and tender. It has a fairly solid head which blanches to a creamy white. Good for home garden growing.</i>				
GREEN CURLED WINTER15	.35	1.10	1.00
<i>A vigorous endive that is usually kept for fall and winter use. Deep green leaves and blanches to a rich cream color.</i>				

FULL HEART BROAD LEAVED ENDIVE

\$0.15 Per Oz; \$0.40 Per ¼ Lb.; \$1.35 Per Lb.; 5 Lbs. or more \$1.25 Per Lb.

Full-heart endive is a most important crop in some sections. It is a money making crop. Our fine stock of this variety pleases the best truckers. If planted sufficiently close, plants will grow upright and easily blanch without needing to be tied.

We sell 3 or 4 pounds at 5 pound rate per pound.

BLAMBERG BROTHERS, Inc., BALTIMORE, MD.

*An ounce sows
500 feet of row*

KALE (Borecole)

*A quarter pound
sows one acre*

When better quality Kale can be produced we will be among the first to offer it. Our New Strains are demanded by successful shippers of the South.

DWARF BLUE SCOTCH, EXTRA CURLED

This Kale is used extensively in the vicinity of Norfolk. It is of a dark bluish-green color, which it retains without yellowing, even after several days of transportation, thus commanding a higher price when put on the market. It obtains a large size and produces a great mass of foliage. In addition, it is very hardy and passes the severest winter without being harmed. Hardier than the Green Curled Scotch.

	Per. Oz.	Per. ¼ Lb.	Per. Lb.	5 Lbs. or More
LONG STANDING BLUE CURLED SIBERIAN	\$0.10	\$0.20	\$0.70	\$0.65

Our strain is much more curled than common sorts. It has a distinctly dwarfed habit of growth, and a very deep blue-green color. It has been bred to stand through the winter without turning yellow as far north as New York. Never known to shoot to seed before spring, if sown for a fall or winter crop.

DWARF BLUE CURLED SCOTCH - see photo	.10	.25	.80	.75
Dwarf Scotch Curled, or Norfolk - green curled	.10	.20	.70	.65
Tall Scotch Curled - two to three feet in height	.10	.25	.75	.70

KOHL RABI

One ounce sows 200 feet of row; 4 pounds sow an acre.

Early White Vienna - (Short Leaved) the earliest	.20	.55	1.80	1.65
Early Purple Vienna - a few days later in maturing	.15	.50	1.50	1.35

LEEK

One ounce will sow 100 feet of row.

Broad London, or Large American Flag	.20	.60	2.00	1.75
Large Carentan Winter - a most desirable sort	.20	.60	2.00	1.75

Write for special attractive prices on 50 lbs. or more of Kale Seed.

“PURESEED BRAND” VEGETABLE SEEDS.

LETTUCE

One ounce will produce from 2000 to 3000 plants; 3 pounds to an acre.

The most careful selections of stock seeds, combined with expert roguing, and care while growing, has brought all of our Lettuce stocks up to the highest standard.

All Packets, 10c each

This is a very fine selection, and an improvement over Big Boston. Our strain is a pure one. It stands many days after maturity before shooting to seed. Its brilliant green appearance makes it command a high market price. Very free from bottom rot, tip burn and grows higher off the ground than Big Boston.

	Per. Oz.	Per. ¼ Lb.	Per. Lb.	5 Lbs. or More
BLAMBERG'S WHITE BIG BOSTON (<i>Unrivalled</i>)	.15	.40	1.35	1.25

Crisp, Heading Varieties

Hanson (w. s.) - <i>a sure-beader, large and late</i>	.15	.40	1.35	1.25
Iceberg (w. s.) - <i>blanches naturally to almost white</i>	.15	.45	1.50	1.35
Mignonette (b. s.) - <i>small, early, hard and globular</i>	.20	.50	1.65	1.50
NEW YORK NO. 12 (w. s.) - <i>the best type of New York</i>	.20	.50	1.65	1.50

Crisp, Non-heading Varieties

BLACK-SEEDED SIMPSON - <i>a clustering sort</i>	.15	.40	1.25	1.10
Early Curled Simpson, or Silesia (w. s.)	.15	.40	1.25	1.10
Grand Rapids (b. s.) - <i>fine for greenhouse forcing</i>	.15	.40	1.25	1.10
Prize Head (w. s.) - <i>bright green, grows quickly</i>	.15	.40	1.25	1.10

Cabbage, Butter-head Varieties

BIG BOSTON (w. s.) - “ <i>Superfine Stock</i> ”	.15	.40	1.35	1.25
Black-Seeded Tennisball, or Salamander	.15	.40	1.25	1.10
Bolgiano's Millionaire - <i>early and large heading</i>	.15	.45	1.50	1.35
BUTTER HEART - <i>better than Calif. Cream Butter</i>	.15	.40	1.35	1.25

It is similar to Cream Butter, but is earlier and without brown spots or brown edge.

Hubbard's Market Cabbage (w. s.)	.15	.40	1.25	1.10
May King (w. s.) - <i>a handsome extremely early type</i>	.15	.40	1.25	1.10
White Paris Cos., or Trianon Cos. (w. s.)	.15	.40	1.25	1.10

Butter Heart is superior to Black Seeded Tennisball and similar varieties.

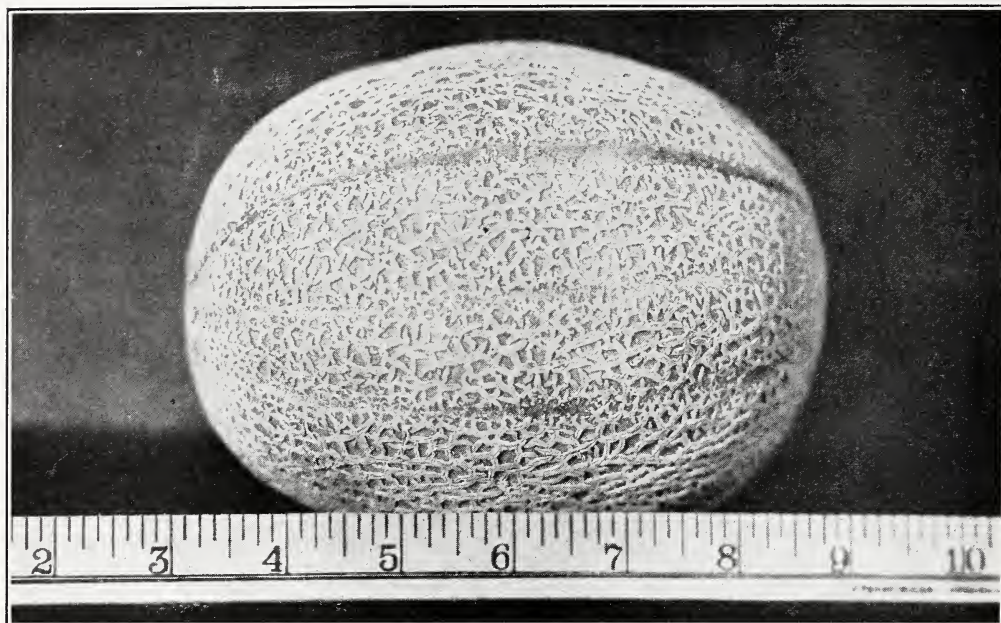

The Letters B.S. indicate Black Seed, and W.S., White Seed

BLAMBERG BROTHERS, Inc., BALTIMORE, MD.

MUSKMELON

GROWN BY BLAMBERG AS A SPECIALTY

All "Pureseed Brand" Muskmelon Seed is hand-cut melon seed. This partly accounts for the grand reputation all our varieties enjoy wherever planted. Our Colorado grown stocks run surprisingly uniform. They have been worked up to the highest degree of perfection.

B. F. WESLEY'S HONEY HEART

A New Muskmelon for 1932

The above is a photograph of our new variety of Cantaloupe which was developed after many years of experimental work. It is said to be one of the finest melons ever originated and at our Colorado Growing Station everyone there including some visiting seedsmen from California and other states, praised it highly.

The netting is uniform all over the melon, and with the slate color background behind the netting, it makes a far better appearance than the average Cantaloupe.

This Cantaloupe is, large, oval, unusually meaty, showing fairly distinct ribs.

IT IS A THICK PINK MEATY VARIETY WITH SMALL SEED CAVITY,
WITH THE ABILITY TO STAND HANDLING AND SHIPPING.

Honey Heart has the good qualities of both the Honey Ball and Hearts of Gold. It is distinct from all other sorts. It is becoming very popular in Maryland.

A WONDERFUL FUTURE IS IN STORE FOR THIS NEW MELON. FORMER
SHIPPER'S OF PEARL PINK MEAT, HEARTS OF GOLD AND HALE'S

DWARF GREY SUGAR—The pods are eaten like snap beans. Vines 24 to 30 inches; lb., 30c; 15 lbs., 20c lb.; 56 lbs., 17c lb.

DWARF TELEPHONE—Vines about 20 inches. Pods 4½ inches long and of Telephone type; lb., 30c; 15 lbs., 20c lb.; 56 lbs., 17c lb.

EVERBEARING—Peas large and wrinkled, and of good quality. Pods 2½ to 3 inches long; lb., 30c; 15 lbs., 19c lb.; 56 lbs., 16c lb.

GRADUS—A wrinkled seeded variety of exceptional eating quality. Large dark green pods; lb., 30c; 15 lbs., 19c lb.; 56 lbs., 16c lb.

LAXTONIAN—Large podded, dark color. Mature for the table in 64 days. Wonderful flavor and a fine home or market garden pea; lb., 30c; 15 lbs., 20c lb.; 56 lbs., 17c lb.

LAXTON'S PROGRESS—A distinctly new pea, with pods a little larger than Laxtonian; lb., 30c; 15 lbs., 20c lb.; 56 lbs., 17c lb.

LITTLE MARVEL—Suitable for both home and market gardeners. 62 days to the table; lb., 30c; 15 lbs., 20c lb.; 56 lbs., 17c lb.

PREMIUM GEM—Two weeks later than American Wonder. Vines 15 to 18 inches. Pods 2¾ inches long. (Price same as Marvel.)

STRATAGEM or POTLATCH—Vine 24 inches. A great favorite. Handsome large pods; lb., 30c; 15 lbs., 19c lb.; 56 lbs., 16c lb.

TALL TELEPHONE—Vine 4 feet high. Pods 4½ inches long with 7 to 8 large peas; lb., 30c; 15 lbs., 19c lb.; 56 lbs., 16c lb.

WORLD'S RECORD—Similar to Gradus, about 4 days later; lb., 30c; 15 lbs., 19c lb.; 56 lbs., 16c lb.

SUPERIOR STOCK

All Packets 10c each

CALIFORNIA WONDER

This is the heaviest Pepper now grown in the United States. It often bears from 6 to 8 large fruits at one time, each fruit averaging over ½ pound in weight. The unusual thick wall will average from ¼ to ⅜ inches. It packs well and is a first-class shipping variety. It is square-ended. Will sit upright. It is truly a wonder.

BLAMBERG BROTHERS, Inc., BALTIMORE, MD.

Sow 4 ounces to
100 yards of row

RADISH

Sow six pounds
to the acre

Great care is devoted to the breeding of our Improved Strains of Radishes. Our stocks are unsurpassed for evenness, earliness and quality. Give them a fair trial.

EARLY VARIETIES

	Per Pkt.	Per ¼ lb.	Per lb.	5 lbs. or more	25 lbs. or more
Crimson Giant Globe	\$0.10	\$0.25	\$0.80	\$0.70	\$0.65

A variety becoming more and more popular. It grows twice the size of Scarlet Globe, is only a few days later and of excellent quality, and stands longer without becoming pithy.

EARLY SCARLET TURNIP, WHITE TIP10	.25	.80	.70	.65
--	-----	-----	-----	-----	-----

Our special strain has large pure white tip, shape more round than ordinary strains.

French Breakfast - good for forcing; oblong10	.25	.80	.70	.65
--	-----	-----	-----	-----	-----

SAXA , Earliest for forcing - earliest for forcing10	.25	.80	.70	.65
---	-----	-----	-----	-----	-----

This variety displaces entirely similar strains such as Non Plus Ultra, Express, Fireball, Scarlet Button, and Ruby. We now believe our strain the best obtainable.

RESELECTED SCARLET GLOBE

Our strain is a perfect one. Color is brightest scarlet, shape perfect. Well rounded bottom with thin tap-root. Tops are of medium size and uniform. Flesh pure white, crisp and fine flavor. Fine for market-gardeners as an early large forcing radish which does equally well outside.

¼ lb., 25c., per lb., 80c; 5 lbs., 70c per lb., 25 lbs., 65c per lb.

RADISH

TRANSPLANTED STOCKS FOR CRITICAL MARKET GARDENERS

IMPORTANT: The finest Radish Seed is produced from roots which, before being transplanted, have been carefully sorted and selected. Our Radish seed is grown from stock seeds produced from transplanted carefully selected roots. The production of this seed requires a great deal of hand work and is therefore much more expensive. This explains why our Radish seed is worth more money than we ask for it.

BLAMBERG'S BICOLOR

Pkt. 10c ¼ lb. 30c per lb. 85c 5 lbs., 80c lb. 25 lbs., 75c lb.

An increasing demand on some markets for a larger portion of White than Sparkler, or Scarlet Turnip White Tip, prompted us to offer this type on which the white extends from the tip up to the middle of the root, or even a little farther. Upper half is vivid scarlet. In shape it is quite similar to Sparkler. A radish of very attractive appearance which has already proved to be a favorite with truckers.

	Per Pkt.	Per ¼ Lb.	Per Lb.	5 Lbs. or more	25 Lbs. or more
GIANT WHITE GLOBE.....	\$0.10	\$0.30	\$0.85	\$0.80	\$0.75

This variety resembles White Box, but is distinctly different. The roots are large, perfectly round, of a clear white color and with a very thin tap-root. Tops are restrained and this variety is therefore more suitable for growing under sash than White Box. Same size as White Box, flesh crisp, snappy and juicy. Excellent for market. Very favorable reports have come from those who tried this strain; therefore, we recommend that you too make a trial.

SPINACH

SPECIAL MARKET GARDENERS STOCKS

NOBEL, GIANT LEAVED, NEW

By far the best of the so-called smooth-leaved sorts. "NOBEL" is an ideal variety for truckers and for canners. It produces smooth, very thick, rounded leaves of enormous size.

Although a very quick grower, it stands very long before bolting to seed.

Reports come from all parts of the world that this is the right thing for the market-gardener.

	Per Lb.	Per 10 Lbs.	Per 25 Lbs.	Per 100 Lbs.

EXTRA DARK GREEN BLOOMSDALE, NEW

A better and darker strain of the well-known Reselected Bloomsdale. Seedsmen who inspected a crop of this variety were much impressed with this attractive selection. Its darker color gives the plant a fresh appearance for a long time after being cut than ordinary Bloomsdale. Though not so long-standing as our New Long-Standing Bloomsdale, it remains still much longer in marketable condition than the old Savoy-leaved. Being just as early, it entirely displaces the old stock.

Summer Varieties

	Per Pkt.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
B. F. WESLEY'S COCOZELLE	\$0.15	\$0.45	\$1.50	\$1.35

A new variety that we offered last year for the first time, to the gardener and shipper desirous of securing the finest Dark Green (not striped) Cocozelle, on the market today. The vines are of bush habit without semi-runners, as in other Cocozelle varieties. Most Cocozelles branch out and run, but ours does not have that tendency at all. The oblong, mature fruits measure ten to twelve inches when ready for shipping. The fruits are dark green and do not become marbled with yellow and light green stripes. The rich green color is retained for a remarkably long time. From 3 to 7 fruits set on each vine not over four inches apart. The quality is tender and delicious and it has great ability to stand handling and shipping.

The quality, trueness of type, freeness of mixture, etc., of our Squash Seed has been taken care of by experts in vine seed growing.

A Money Maker. B. F. WESLEY'S COCOZELLE.

It is destined for a splendid career and should earn thousands of dollars for our customers.

"PURESEED BRAND" VEGETABLE SEEDS.

TOMATO

One ounce produces about 2000 plants.

Blamberg's Tomato Seed is unsurpassed by that of no other tomato seed grower in America; hundreds of Market Gardeners and Cannors will so testify. In Texas, Florida, the Carolinas, Virginia, Maryland, Delaware, Indiana and other States, good planters demand it annually.

PURESEED BRAND stocks are grown in the North country where the Wilt-fungus does not thrive. Our stocks being constantly selected and bred toward a higher type of perfection, the superiority of the strain has become fixed and can be depended upon to meet the most exacting requirements of the conscientious and ambitious Market Gardener.

Globe-shaped
with the size
and good quali-
ties of Living-
ston's Globe, but
earlier and a
heavier cropper.

Entirely immune
from rust and
wilt. Valuable
for canning and
marketing. Seed
cavity very small.

Special Marglobe

Spend what you will—twice our price—and you'll get no purer, truer to type Marglobe. Buy the costliest Marglobe seed you can locate, and you'll get no larger yield, nor will you harvest a crop one day earlier than Blamberg's Marglobe will produce a crop. Our seed originally was supplied by Dr. Fred J. Pritchard of U. S. Department of Agriculture.

Wilt-Resistant Sorts

All Packets, 10c each.

	Per Oz.	Per ¼ Lb.	Per Lb.	5 Lbs. or More
MARGLOBE (<i>Special Stock</i>) - a midseason sort.....	\$0.35	\$1.00	\$3.75	\$3.50
Columbia - resembles Greater Baltimore.....	.35	1.00	3.50	3.25
Norton - similar to Stone but wilt-resistant.....	.30	.90	3.25	3.00
Wesley's Perfected Stone (<i>New</i>) - very popular.....	.25	.75	2.75	2.50

Wesley's Perfected Stone ripens earlier than average strain of Stone. It produces smoother fruits and more tons per acre. It is disease resistant, and "grown in the North Country" where the wilt-fungus does not thrive. Many vines carry from 60 to 80 fruits.

Purple and Pink Sorts

TOMATO—(Continued)

IMPORTANT NOTICE:—*Bolghiano's Monumental Tomato Seed can be procured only through Blamberg Brothers, Inc., the successors to Bolghiano of Baltimore. Play safe, by sending us your order for the originator's stocks. In dry and irrigated sections, it has excelled all other varieties, due to its strong vine growth which well protects the fruit. Monumental comes to maturity a few days later than the extra early varieties.*

It is brilliant red,
large, solid, no
core, and small
seed cavity.
Globe-shaped,
colors evenly to
the stem. Fruit
is borne in
clusters. A
heavy yielder.

An ideal variety
for long distance
shipping. Green
fruit ripens up
perfectly after
having been
picked for two
and three weeks.

BOLGHIANO'S MONUMENTAL TOMATO

SECURE YOUR SUPPLY FROM THE ORIGINATORS AND THUS BE SURE OF
PEDIGREED STOCK

A big shipper in Texas says this about Monumental: From several years of experience with this variety, I think it bears more marketable tomatoes than any variety we have planted; which were—Marglobe, Gulfstate Market, Clark's Early, Texas Special, Livingston's Globe, Stone, John Baer and several other varieties. Monumental, wherever planted, continued to flourish and yield throughout the drought season of 1930. Interested planters should write Blamberg Bros. for further information on Monumental.

Your Soil . . . the world's best testing laboratory . . . will PROVE the unexcelled value of Bolghiano's Monumental tomato seed. The Wonderful, Drought Resistant Tomato!

THE NEW BREAK O' DAY

Solid as an apple ~ Earlier than Bonny Best

“Blamberg’s Break O’ Day” is a splendid strain of “Break O’ Day” Tomatoes, and our seed has been produced directly from the original stock seed supplied us by Dr. Fred J. Pritchard, late Senior Physiologist of the U. S. Dept. of Agriculture. Keeping this new variety true-to-type is the interesting work of Bolgiano’s expert tomato-plant breeders. In using this Break O’ Day you will share the confidence placed in us by thousands of tomato-growers. Our high grade tomato seed has been grown successfully, for many years, in every tomato State in America. If the indications which it has thus far given are borne out, it may entirely replace the Bonny Best group and perhaps, to a considerable extent, Earlianna types.

It is DISEASE-RESISTANT. It has the COLOR, and NEARLY THE FRUIT-DEPTH and WALL-THICKNESS of MARGLOBE. Almost as early as EARLIANNA. It yields heavily; packs well and is a good shipper.

Price delivered: pkt. 15c; oz. 40c; ¼ lb. \$1.25; lb. \$4.50

PURPLE TOP WHITEGLOBE

LAWN GRASS SEED

Tested as to
Germination

THE PERFECT LAWN IN AN IDEAL SETTING

The Lawn

The ideal lawn grass is one with a creeping, permanent stem, and adapted to the greatest variety of soils. Kentucky Blue Grass fulfils these requirements. Kentucky Blue Grass, though slow in germinating, makes a strong, permanent turf. It is used as the chief ingredient for lawns along the Atlantic Coast, north of Washington, D. C., and along the Alleghany Range as far south as Georgia; and the prime reason for adding other grasses is to cover the ground before the Kentucky Blue Grass has become established; and, therefore, to occupy the ground to the exclusion of weeds.

LAWN GRASS MIXTURES

BLAMBERG'S "PURESEED BRAND MIXTURE" (a refined mixture of Kentucky Blue Grass and fancy, quicker-germinating seeds) can produce NEW BEAUTY—for every lawn. It grows! It is a thoroughly practical formula that has been used on soils of average fertility and composition, on soils of uncertain quality, with great success; because one grass or another out of the mixture has fitted each special soil condition. It gives immediate results.

1 lb., 40c; 10 lbs., \$3.75; bu. (20 lbs.), \$7.00; 100 lbs., \$32.50.

DRUID HILL PARK MIXTURE: This famous mixture (sold only by Bolgiano for many years) contains none of the coarse grasses that grow in clumps. It is made of an excellent combination of fine-leaved grasses of low, compact growth. Thousands of lovers of good lawns know that it will produce a velvety lawn in as short a time as possible.

1 lb., 35c; 10 lbs., \$3.25; bu. (20 lbs.), \$6.00; 100 lbs., \$27.50.

SHADY NOOK MIXTURE: Our mixture is made up of shade-loving grasses which will grow perfectly in shaded spots.

1 lb., 45c; 10 lbs., \$4.25; bu. (20 lbs.), \$8.00; 100 lbs., \$37.50.

WRITE FOR PRICES ON GRASS SEEDS FOR SPECIAL MIXTURES. We can quote attractively on miscellaneous grasses for lawns, parks and golf links.

Sow at the rate of 1 lb. to 100 square feet for immediate results.

The year 1932 dawns with a wonderful possibility for the bringing back of normal conditions, if we all, every one of us, practice true economy. YOU are interested in economy. Buying good seed and fertilizer is economical! Sometimes it costs a little more than you could get these items for "elsewhere," but it changes your seed and fertilizer bill into a productive investment instead of an expense. Let us unite to keep up the standard of vegetable quality regardless of conditions.

FOR THE MOST CRITICAL GARDENER
